Ann: What's your house like?

Ben: Well, it's quite big and spacious. All in all, it has got five rooms and two bathrooms. The bigger bathroom, which is upstairs, has both a bath and a shower cabin and the smaller one has also a washing machine and a tumble-dryer. The tumble-dryer is especially useful for us as it takes just a few minutes to dry our clothes.

Ann: You've got a big family so having two bathrooms is very practical, I suppose.

Ben: That's right. Especially in the morning when everybody is in a hurry to go to work or school.

Ann: I know you love cooking, so tell me something about your kitchen.

Ben: It is very well-arranged and it has modern equipment to help me cook faster and better. I'm very proud of my multi-purpose food-processor which can do all kinds of things necessary to prepare a meal like mixing, chopping, heating etc.

Ann: I've heard that your living room is amazing.

Ben: Yes, it's true. It is my favourite room in the house because it has got a huge window and I can look at my garden lying on the sofa. I find it very relaxing particularly after work.

Ann: You mentioned your garden. Could you tell me something about it?

Ben: Sure, it's very colourful. Thanks to the flowers which are all over the place, but the most beautiful ones are the roses.
