| Tigers have tails which are four meters  B All tigers are about 300 kilos.  C Other animals are their food.  D Tigers don't eat meat.  Tigers are the largest of the big cats. They can be long including the tail, and the heaviest tigers are kilos. Their fur is orange and white with thin be close to water. They like swimming! Tigers live alone. They kill and eat other animals for food. |  |           |                   |                |                      |     |                        |  |  |  |  |  |  |
